## RENEXPO® SOUTH-EAST EUROPE 8th Energy + Efficiency Fair and Conferences

It has become a tradition that in November all the key players meet at RENEXPO® SOUTH-EAST EUROPE, Romania's Platform for renewable energy and energy efficiency. The event comes back in 2015 with its 8th edition, between the 18th - 20th of November, at the Palace Hall in Bucharest. This year's edition aims to present themes for a sustainable future, gather in one place decisions makers, investors and beneficiaries and facilitate the know-how transfer. A special attention will be given to energy efficiency, due to the impact that this sector has on the economy, environment, national energy security and social benefits of Romania.

To promote sustainable energy in the private sector, the EBRD and the EU, through the Romanian banks, provides funding and guidance to companies wishing to invest in energy efficiency and small scale projects of renewable energy. To date, the EBRD has invested over euro 7 billion across 370 projects in Romania. It has also mobilised more than euro 14 billion for these ventures from other sources of financing.

The exhibition will host companies from: **PV, hydropower, energy efficiency, biomass, biogas, cogeneration, energy consulting, financing services** and others. Companies such as: *Caleffi România, C Geangu Consulting S.R.L., CINK Hydro-Energy k.s., Global Hydro Energy GmbH, Superlit România S.A., Voith Hydro S.R.L.* and others have already booked a booth.

In parallel with the exhibition, **national and international conferences** and side events will be organised. The highlight of this edition will be the **1st International Energy Efficiency Summit**, organised by REECO company in Romania. The summit will present two major topics: *Energy Efficiency in Buildings* and *Energy Efficiency in Industry*. Other themes will be: **bioenergy** with biomass and biogas topics, **solar energy, hydropower, waste to energy and cogeneration**.

Also for the 1st time, in parallel with the fair, workshops will be organised with topics on project financing and Romanian energy export initiative.

With this year edition of the trade fair and conferences RENEXPO® SOUTH-EAST EUROPE, REECO company intends to host around 110 national and international exhibitors, 2200 specialised visitors and 600 conference participants.

### **About RENEXPO® SOUTH-EAST EUROPE (Bucharest):**

RENEXPO® SOUTH-EAST EUROPE is Romania's Platforma for renewable energy and energy efficiency, where key players meet every year, in order to support their business, share trends, show innovation and be a voice in the society. The event covers topics from renewable energy and in 2015 a special attention will be given to energy efficiency. The exhibition is accompanied by an extensive conferences and side events program.

**About REECO RO Expozitii S.R.L. and REECO Group:**

REECO RO Expozitii S.R.L. is organizing the international trade fairs and conferences RENEXPO South-East Europe (Bucharest) and ENREG (Arad). REECO is part of the REECO family, which is headquartered in Germany and is one of the largest European trade fair and conference organizers in Europe in the areas of renewable energies, energy efficiency and energy efficient building and renovation. Since its incorporation in 1997, REECO has organized over 1,000 trade fairs and conferences, hosting an average of 50,000 visitors and more than 2,000 exhibitors a year. The event portfolio currently includes eight trade fairs and 60 conferences in Germany and Europe. REECO employs around 50 employees in five locations in Germany, Austria, Poland, Romania, Serbia, Bosnia and Herzegovina and in 2015 additionally in Montenegro and Albania, with further potential to expand to Macedonia and Croatia in 2016.
